

All active (contributing) participants, retirees and former participants, have received a letter from the board of Pensioenfonds Caribisch Nederland, or will receive this letter in the coming days. In this letter the board gives an explanation about a possible reduction of the accrual of the pension benefit (for active participants and former participants) and of the monthly benefit of the retirees.

The following subjects are discussed in the letter:

- Background of the situation that has arisen
- With which problem is PCN confronted?
- Have the assets of PCN not been managed properly or is PCN 'unhealthy'?
- How big will a possible reduction be?
- What action does the PCN board take in the light of this situation?
- What can (former) participants expect from PCN?

You can read the complete letter [here](#).
